The Final

Draft Lesson. Still working on it.

NOW PROVE IT

That's the course. Every idea you need is in the Opener, and it isn't going anywhere.

So here's the last move: twenty questions pulled from every section of the course, ten minutes on the clock, and no feedback until you're done. Clear 80 percent and the certificate is yours. Fall short and you'll see exactly which lesson to go back to, then you take it again.
